TOOLS

3D	Blender, Cycles, Python; Gaussian splats in Brush and Spark
Real time	three.js, WebGPU, TSL, WebGL2, GLSL
Web	TypeScript, React, Next.js, Sanity (headless CMS), Shopify, GSAP, Web Audio
Design	Figma; identity, type, art direction
Film	Veo, Kling, Hailuo AI, Topaz, CapCut, FFmpeg, Remotion
Image	Nano Banana 2.1, Image 2.5, Midjourney
Sound	Logic Pro, Suno, LANDR; synthesis in code
Agents	Claude Code, Codex, Gemini 4 Argon; MCP into Blender and Figma

OLIVER KURE OLSEN
EACH NAME OPENS THE PIECE, LIVE

I design brand and product sites in live 3D and build them for the browser, from the identity to a page that runs smoothly on a phone. I make the calls; AI agents write the code with me, inside a setup I run: speed benchmarks on phones, live error reports and a consistency check in every build. I came to design from music and an MA in social psychology.

01 / WORK

2026 · ALL OF IT RUNS LIVE

CLIENTS

Bodernes Strandcafé BODERNESSTRANDCAFE.DK	A beach café on Bornholm. Live surf under the page; draw in the sand. The owners can edit hours and menu in Sanity.
Murermester Magnus MURERMESTER-MAGNUS.DK	A Copenhagen mason. The page is a white-painted brick wall at real size in low sun; text is troweled on as you scroll.
Severin RESTAURANTSEVERIN.DK	Pizza by Frederiksholms Kanal. One day at their table outside, under today's sun; the owner's photos land on it.
OWN STORE	
DRAIN DK DRAINDK.TECH	A Shopify store set inside Japan's Super-Kamiokande neutrino detector, modelled at true scale in live 3D.

SIMULACRA · HYPOTHETICALS

Terne X	A Danish camera drone and its launch in thirty markets. Scripted in Blender, live on the page.
Horisont	An observatory's field guide to a black hole, its light bent live, and an identity from the ring of light.
Grums	An imagined Vesterbro wine bar made into culture: identity, a running club, clothes.
M1 microphone	Designed from a one-page spec, built by script in Blender. Take it apart in the browser.
Tide	A harbour-bath app whose colour is the water's temperature. UX, UI, identity, a working prototype.

PROPOSALS

Bageriet B	A sourdough bakery in Nørrebro. Opens like an Ozu film.
Riviera	An Italian bakery on Nansensgade. Opens like a 1960s film.
LAB	
FERRO, Shrike	A bomb-disposal robot and its operator console over a delayed radio link; a stealth drone and its kit in one case.
Meniscus, Swash, Shutter, Pintable, Exploded	A word in water, a surf you write in, a drone in a rolling shutter, Copenhagen in steel pins, Terne X in numbered parts. Open source (MIT) on GitHub.

02 / EXPERIENCE

DRAIN DK, own studio and label, Copenhagen	2020–NOW
Releases, artwork, films, Shopify, Meta and Google Ads, and sites for clients. 1,000,000+ streams across the discography; 1,298,593 views on one Reel. ↗	
SOHO Klosterstræde, office and start-up community, Copenhagen	2025–26
37 hours a week on my own business, with peer sparring and a pitch to Knowledgeboard.	
Startup Incubator, Akademikernes A-kasse · one-to-one business mentoring	2025
Erhvervshus Hovedstaden, Copenhagen Business Hub	2024
Sparring with two business developers on digital design, branding, AI assets and music.	

03 / EDUCATION

MA, Social Psychology and Learning	2026
Specialisation project graded 12, the top mark.	
BA, Psychology and Health Promotion	
Subject module project graded 12; bachelor project graded 10.	
Vig Musikhøjskole · music folk high school, drums
